The EFT Pill

About EFT

We have been increasing performance and economy while reducing harmful emissions for 25 years. EFT has provided *patented* fuel technology in tablet and pill form for over 25 years.

Millions upon millions of pills have been sold and distributed around the globe, from Russia through Europe, Africa, India, The Middle East, Asia and the Americas.

Distributors have included major oil companies such as Shell, Mobil, Caltex and many more to direct sales companies and through MLM.

There is no other technology in any way similar to EFT.

We guarantee the following:

- Improved fuel efficiency
- Reduction in harmful exhaust emissions
- Reduction in maintenance costs
- Will not damage engine or void engine warranty

Guaranteed: Product Liability Insurance: If any of our products are proven to cause engine damage they are insured for \$10 million per claim. We have never had a claim!

NO other company has this insured guarantee!

What is the EFT Pill?

The EFT fuel pill is a revolutionary product with multiple benefits for all types of vehicles; petrol or diesel.

It is a highly refined pure petroleum product of exceptional quality, with atomic structure composed of long hydrocarbon chains. It is made from a high vacuum, high temperature distillation process; way beyond the usual refining practices.

The tablets dissolve completely in fuel to promote cleaner burning engines. It conditions and purifies the fuel, altering its molecular structure and other properties, thus changing the way the fuel behaves. The EFT Pill, being a hydrocarbon composition, is a fuel conditioner, not an additive.

What does this mean for the fuel user?

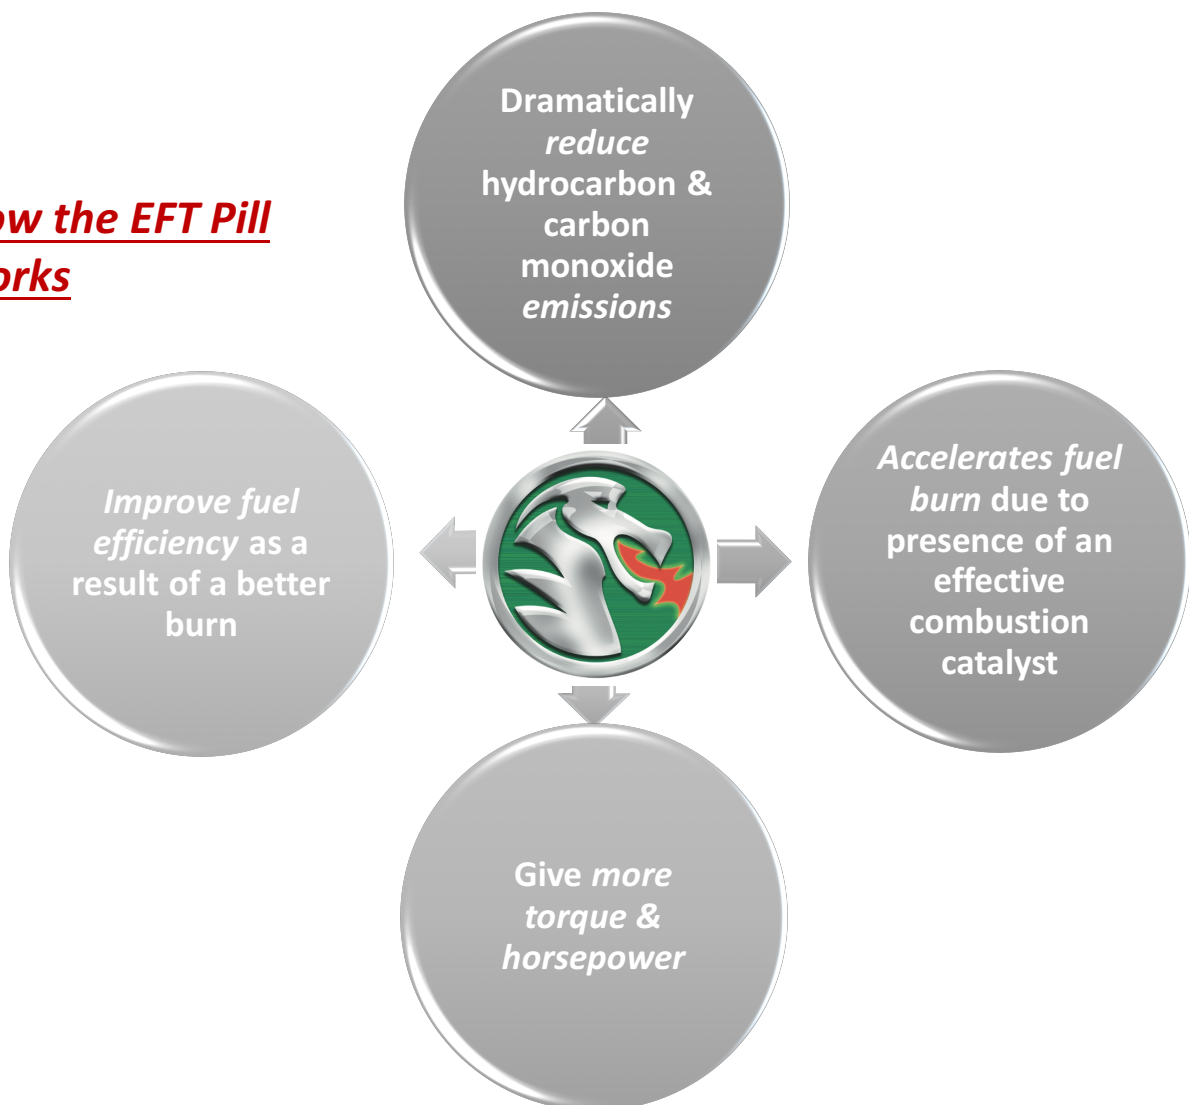

You only use approximately 80 cents for every \$1 you spend on fuel; the remainder is unburned fuel that comes out of your exhaust as poisonous gas emissions.

This is fuel that you have *paid for* and *not used!*

We improve the fuel burn; reducing toxic emissions and improving fuel efficiency.

How the EFT Pill works

What are the benefits for customers?

- Cost savings through improved economy;
- Promotes more complete combustion of fuel, thereby *increasing engine power*;
- Reduces damage caused by acid action in the engine;
- Less sludge in the fuel system; *longer lasting fuel filters*;
- Allows *easier start-up* of engines by controlling fuel stability;
- Cleans and maintains the cleanliness of fuel lines, valves, pistons and rings, injectors, carburettors, and entire fuel system;
- A substantial reduction in air pollution and exhaust smoke emissions due to more complete fuel combustion;
- Less fuel loss due to evaporations, and promotes greater performance from poor-quality fuels; and,
- Acts as a lead substitute.

From our users: London Taxis

"The Pill really does work – we have tested all kinds of devices which are designed to give better performance, but in our opinion, none have ever achieved results as consistently as the Pill.

The cleaning of the engine and fuel system starts immediately and within just a few tanks of fuel, you are driving a much cleaner vehicle, pumping out less emissions and saving money not only on fuel, but hefty servicing bills too.

We believe engines using the Pill should last in excess of 600,000 miles."

- London Taxi News

Valve Seating in a cab not using the Pill

Valve Seating in a cab that is using the Pill. The difference is astonishing.

Commercial results for large fuel users:

LOCATIONS	FUEL SAVING	EMISSION REDUCTION
Romania - Bucharest City Council	11%	67%
Russia - Moscow Transport Authority	14%	42%
Philippines – Buses, LTO	18%	50%
Istanbul - Bus I.E.T.T, Turkey	11%	41%
Army, Pakistan - Lahore	12%	50%
Power Board, Oman – Muscat	22%	67%
Buses. Hobart - Australia	9%	35%
Railways. Minsk – Belarus	14%	40%
Fire brigade, Forli, Italy	18%	76%
India – Buses. Rajasthan Transport Authority	17%	70%

What have experts and the media said about the EFT Pill?

"Medicine for your car"
– Malaysian Media

"The Pill is of benefit to reduce emissions. The pill has been used in numerous aircraft towing tugs, to be invaluable for our ground handling operation. When you are towing, manoeuvring or operating adjacent to multi million dollar aircraft with hundreds of passengers and friends watching our tractors in operation, having clean burning vehicles is paramount"

AIR NEW ZEALAND

From: Healey, Bob [mailto:Bob.Healey@airnz.co.nz]
Sent: Monday, 10 May 2010 11:07 a.m.

Air New Zealand's operational excellence is achieved by a comprehensive commitment to safety and employee wellbeing. Our Ramp and Line Maintenance divisions are a 24/7 operation at major airports throughout NZ, and we own and operate over 300 "Airport specific" vehicles.

Many of our vehicles are diesel engine powered and with older engines, emission control is a prerequisite for employee wellbeing. We have found the EFT-Pill product to be of benefit, to reduce these emissions. The EFT-Pill systems have been used in numerous aircraft towing tugs, to be invaluable for our ground handling operation.

"When you are towing, manoeuvring or operating adjacent to multi million dollar aircraft with hundreds of passengers and friends watching our tractors in operation, having clean burning vehicles is paramount"

Examples of Government and Independent Test Companies

University of NSW, Australia...

Dr. Stephen Hall (abridged)
“the pill... allows a car to use less fuel therefore improved fuel economy... The pill did not leave any engine deposits.”

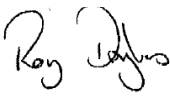

New Zealand Technology Institute

“greater combustion efficiency more power and improved fuel economy, significant reductions in emissions”
Dr. Tony Hocking

Queens University, Belfast,
found combustion efficiency increased by 20-25%

Dr Roy Douglas

SGS: conformity; the products do not take fuel out of specification

AA Singapore

“Speaking for the associations point of view, if enough people use the product, hopefully we get a cleaner environment” – Mr. Gerard Ee (President, AA)

Dekra, Germany

Increase in power, does not take fuel out of specification

Philippines, LTO

(Land Transport Office)
10.5% fuel saving
90% emissions reductions

Insurance from **Averda** with a value of \$10 million, and insurance from **Alliance** with no claims in 25years

What Major Companies and News Media say about the Pill

DHL, China

15.53% fuel saving
Smoke emissions significantly reduced

Motor Cycle News

Great Britain
"the Pill works"

Shell Australia

Distributed by Shell to their customers to improve the fuel quality.
William Singer, Manager
Shell Direct

STAR TV, India

"a whiff of fresh air
for the environment"

BP, New Zealand

Increased octane
More power

Good Morning Singapore
"the potency pill for a car"

Athens Taxi, Greece
14% fuel saving
54% emissions reduction

Philippine Army:
45% reduction in emissions
17% fuel saving

Beware of imitations!

There have been some notorious *Scam/Fake companies* that have attempted to use our good name, reports and reputation to “get rich quick”.

These thieves have used fake Chinese copy pills that are *not safe to use* and cost as little as 2 cents to make and cause engine damage.

For names of reputable brands manufactured or supplied under EFT license please contact us.

Below is a link to a recent scam/fake company that was charged with fraud by US authorities.

Media Press Release: Marketers Who Claimed Fuel Additive Could Drastically Increase Fuel Economy and Reduce Emissions Settle with FTC | Federal Trade Commission

<https://www.ftc.gov/news-events/press-releases/2013/11/marketers-who-claimed-fuel-additive-could-drastically-increase>

100% money back guarantee!

The E.F.T. product range has been developed over a 20 year period and are applied to gasoline, kerosene, diesel and heavy fuel oils
100% money back guarantee!

If it is proven that our products do not make the fuel you are using burn better and reduce harmful exhaust emissions then you receive your money back.

We have never had a claim!

Product Liability Insurance: If any of our products are proven to cause engine damage they are insured for \$10 million per claim.

We have never had a claim!

No other company has this insured guarantee!
